Mission Statement

- To make **BFS** the most potent force in freight forwarding industry in all over the world
- To provide quality service at a realistic and most competitive price.
- To accept customer perception as real and to engineer products to cater to their needs in an agile and diligent manner.
- To constantly endeavor at creating modern solutions for effecting rapid transportation without sacrificing quality or customer interest.
- To be honest and forthright in all dealings with the customers.
- To take care of, reward, and encourage all who are family members of **BFS** enabling them to live productive, respectful and happy lives.
- To have strong faith and belief in the Almighty, the He would reward honest and diligent endeavor and will bless all those who work for the company.
- By virtue of above, we believe that **BFS** will be Leader in Global Logistics Management in Pakistan.

Message

BFS has and will always be a very dependable and adaptable company.

It is driven by a strong confidence and inner belief of being able to respond to contemporary user needs in an agile intelligent and internationally compatible way. Based on a customer bank consisting of some of the top international and national companies it is indeed a matter of great pride to construe this as a big vote of confidence.

By virtue of a team approach to product development, our customers and partners work in the secure belief that their goods are handled in a professionally efficient way in mutually developed customized customer service modules.

This customization of service parameters allows for a dynamic development of quality systems. This results in a high level of value addition and customer ownership of the complete product. The most refined feature of the **BFS** system is the internal transport system that both collects for the Karachi hub and delivers to inland freight stations according to a fixed departure and arrival schedules (air and sea).

These schedules dovetail onto a sophisticated connection program with fast NVOCC sailings to and from World Wide destinations. Other features include a seamless DDU and DDP time definite delivery modules. Other products include Air cargo, warehousing, buyers consolidation, projects and heavy lifts, and transit cargo for Afghanistan.

BEST FREIGHT SERVICES

A Brief Introduction

The **BFS** one of Pakistan leading success stories turned their vision of launching a separate NVOCC in Pakistan into a reality in 2015 **BEST FREIGHT SERVICE** rapidly grew in stature soon facilitating marine services globally and managing global distribution for both national as well as international organizations. Today, **BFSERVICE** has established itself as a key player with 10 hubs identified as essential distribution points facilitating goods to move rapidly to final destinations on multi-modal transport bills of lading. At the heart of **BF SERVICE**' success lies the seamless service which is time definite and user friendly because of the economic rates. Diversification has led to establishing of air operations and offering a full scale of logistics solutions.

BFS also handles transmission of cargo from Karachi port to all destinations in Afghanistan. The Group is providing a reliable link for cargo movement to Afghanistan via Pakistan for, UN/ International Coalition / ISAF / US Embassy, NGOs / Government to Government Assistance, & Commercial cargo transit via Pakistan. With its comprehensive & seamless service packages, the group has established very successful business relations with Pakistan's elite Organizations & Multinationals.

A Penchant for Growth

We call forward thinking at **BF SERVICE** as "pioneering advancement through visionary thinking". A systematic process of online training has led **BFS** to achieve a 100% track record and rapid transport times unmatched by competition.

This approach helps us to exchange information with our overseas agents be it invoicing, bills of lading or manifests, in a record period of just 7 days after vessels departure. **BFS** handles huge quantities of cargo to and from worldwide destinations. proof of our rapid growth in the industry.
